Hey Yesenia,

Attached is the Word version of the letter I mentioned. Can you look it over and make sure I didn't screw up any formatting or anything like that? And make sure I'm cc'ing the right folks. Actually, should add Eileen to this. Can you add Eileen to the cc list?

If it's all good, can you create a PDF for my e-signature? Please let me know if you have any questions.

I also attached the incoming from the attorneys and WDNR's follow-up letter after Maria Hill and I spoke to give context.

Thanks,

Doug

Mike and Rett,

Maria's email is accurate. I reached out to her after receiving the email directed to the two of you. As Maria notes, WDNR recognizes this is an issue and is addressing by including confidential source emissions data moving forward.

I have drafted a letter responding to the letter addressed to you two and should be sending it this week. The response is consistent w/the letter from Gail and directs further inquiries to WDNR.

Please let me know if you have any questions or concerns.

Thanks,

Doug

Michael,

While the department has been communicating via phone and email with Doug Aburano about a letter from Pines Bach on Wisconsin confidential sources and reporting to the National Emissions Inventory, attached you will find a written response as signed by Gail Good. Please let us know if there are further questions or concerns.

Thank you,
Maria Hill
